

## How to use Kodi

1. Press the Home Key on your Amazon remote. (The Home Key looks like a House.)
2. Go to your Recent Row or Your Apps and Games or Your Apps and Channels.
3. Search for Kodi, and then Press on Kodi.
4. Once Kodi is opened, Wait 5 minutes before moving around. (This allows your Apps to Fully Update.)
5. Go to Movies or TV Shows.
6. Look under the Movie or TV shows category and select on the Add Ons like Placenta and the other Add Ons.
7. Once you have opened any of the Add Ons, Scroll down to Search. (You can view the different categories as you go along.)
8. Search Movies or TV Shows by typing in the Name of what you are searching for.
9. Press the backwards arrow, which is in the Search Box. It is the Enter Key.
10. Press the inner circle on your Amazon Firestick (Enter Key) on the picture of your TV Show or Movie.
11. Once the Links start to appear. Highlight the link of your choice.
12. Press the 3 lines on your Amazon Remote (Menu Key)
13. Select Play or Auto Play.
14. Once your Movie or TV Show starts to play. Press your inner circle on you Amazon Remote.
15. A Scroll Bar will appear displaying the Fast Forward, Play, Pause, Stop, and Rewind Keys.
16. Press the Square Key to Stop. (Very Important)

### \*\*\* FOR YOUR INFORMATION \*\*\*
